

### WELCOMES YOU TO USING *BARREL FIRE BRICKS*

Whether you are sugaring, grilling, smoking, or baking, *Barrel Fire Bricks* will increase the efficiency of your fire and extend the life of your barrel. Let's get started!

Unpack your *Barrel Fire Bricks*. You are going to lay the eighteen fire brick in and up the sides of your barrel. There is no magic to this, but you may note that the brick fit nicely in three rows of five brick each, with three bricks in the back of the barrel, as seen to the left. Note that the *Barrel Fire Bricks* will fit in your barrel even if you have also chosen to purchase the *Barrel Fire Grate*, also shown.
